ESTEEM ENHANCING STATISTICS TEACHER EDUCATION WITH E-MODULES

These materials are intended to be used with preservice middle and secondary mathematics teachers in online environments. The first module (Module 1) is divided into two main sections 1.1 and 1.2. The purpose of this page is for you to get familiar with the content of these modules and how they are organized. You can download the materials to import into your own Learning Management System (LMS) with the links shown on the right. Current LMS we support are Moodle, Blackboard, and Canvas.

1.1 What is statistics and how should we teach it?

In this module, the focus will be on learning to engage in statistics using technology tools and developing knowledge and skills for planning lessons for teaching topics within statistics. The emphasis

To access ESTEEM from The Place homepage once you are registered

1. Log in to <https://place.fi.ncsu.edu>
2. Click on “My Courses and Resources” on the top menu. Once you register for ESTEEM, it will show up here.

The screenshot shows the top navigation bar of the ESTEEM website. The 'My Courses and Resources' link is circled in yellow. Below the navigation bar is a banner for 'Spring 2018 Registration is Open!' with a background image of people in a classroom. Below the banner is a section titled 'MOOC-Ed: Massive Open Online Courses for Educators' with four course cards, each with a 'Registration Open' badge.
